**more safety**  
**more productivity**

Our business in Romania belongs to BrandSafway, a global provider of access, specialized services and forming & shoring solutions with more than 340 branches all over the world.

As Brand Romania, we offer inspection and maintenance plans around your needs, from heavy-duty system scaffolding or rope access right through to blasting, painting and insulating.

Our industrial locations in Ploiești, Bucharest and Cluj provide the latest technology to clients to enhance the safety and productivity of industrial sites and processes.

## Made-to-measure metal part fabrication

Brand Romania – part of Hünnebeck Romania – is your experienced partner for the fabrication of metal parts used for cladding insulation in industrial plants.

### Introducing our new production facility in Ploiești

We are proud to announce the launch of our new state-of-the-art production facility in Ploiești, dedicated to manufacturing high-quality sheet metal cladding for insulation systems. With a production workshop covering 2,000 square meters and an additional 13,000 square meters of laydown area, this facility is fully equipped to meet the demands of even the most complex projects.

Utilizing advanced MABI machinery—such as the MABI Bingo 4E EVO and MABI

16-Z Classic—alongside a comprehensive range of cutting, bending, folding, and swaging equipment, we ensure precision and consistency at every stage of fabrication.

Our in-house production capabilities allow us to fabricate custom sheet metal parts to exact specifications, tailored to each insulation project. From initial measurements to final assembly, we combine flexibility with reliability to deliver outstanding results on time, every time.

**more safety  
more productivity**

**Our range of services includes:**

- › Consultancy and project-specific planning for industrial insulation systems
- › Technical calculations and on-site dimensional surveys for optimized fit
- › CNC-controlled fabrication of sheet metal components in our in-house workshop
- › Manufacturing of cladding systems for pipework and equipment insulation
- › Professional installation of thermal, acoustic, and fire protection insulation
- › Streamlined project execution with centralized order management, production tracking, and strict adherence to deadlines

## Machines

### Performance MABI Bingo 4E EVO

- › Cuts (min. cutting length 270 mm)
- › Band width 914 mm – 1250 mm
- › Cutting stainless steel (V2A):  
min. 0.5 mm to max. 0.8 mm sheet thickness
- › Cutting aluminium, galvanised sheet:  
min. 0.5 mm to max. 1.0 mm sheet thickness
- › Conical punching (punching) for straight blanks
- › Punching (quick stroke) for all industry-standard moulded parts

### Performance MABI 16 Z Classic

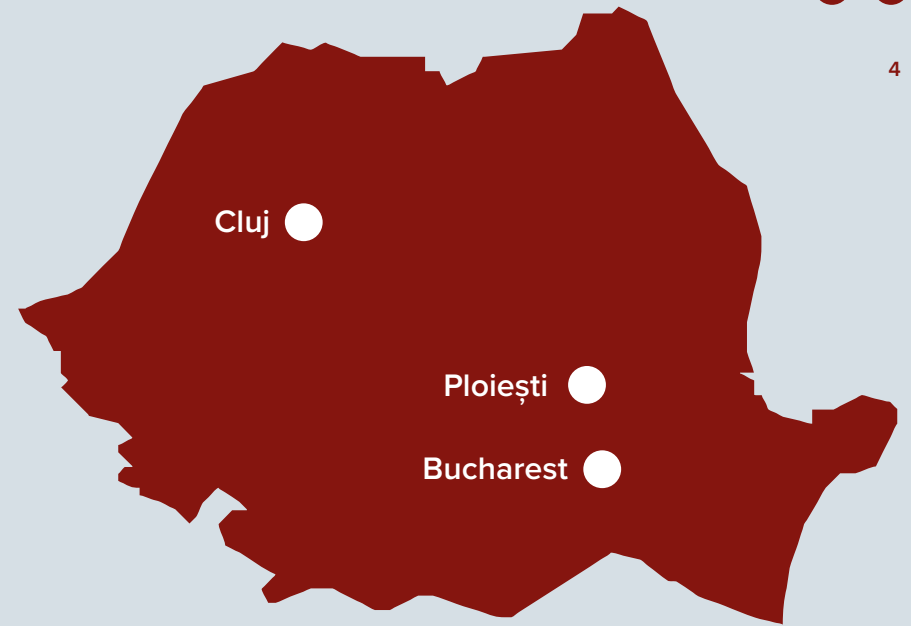

- › Punching (fast stroke) for standard metres
- › Tube metres and blanks  
(min. blank length 280 mm, min. tube diameter 80 mm)
- › Band width 1000 mm
- › Cutting of aluminium, galvanised sheet:  
min. 0.5 mm to max. 1.0 mm sheet thickness
- › Conical punching (punching) for straight blanks and insulating pipes, recessed bead (50 mm)
- › Punching (quick stroke) for all industry-standard moulded parts, straight blanks and insulating pipes
- › Rounding + round/cross bead (on both sides) for straight blanks and insulating pipes

## Contact

Contact us to find out more about our sheet metal processing services or to discuss your individual requirements. You may also benefit from attractive package offers together with our industrial and scaffolding services.

Our dedicated team is at your disposal to assist you in the realisation of your projects. We look forward to hearing from you!
