

Rope Access

Reach New Heights

Brand Energy & Infrastructure Services (BRAND®) delivers a comprehensive access solution. As a natural extension of our industry-leading scaffolding and work access capabilities, we offer rope access services - enabling safe, efficient access to elevated or hard-to-reach areas where traditional methods may be impractical or cost-prohibitive.

Experience shows an embedded multicraft rope access team can significantly reduce costs.

**50% Savings
on average**

Rope Access Service Offerings

- › Maintenance and repair
- › Surveying, inspection and audit
- › Coating and painting application
- › Insulation application
- › Fireproofing application and heat tracing
- › QuikDeck® installations
- › NDT (Non-Destructive Testing)
- › Leak detection and repair services (LDAR)
- › BrandTech® precision welding
- › Dropped object survey
- › Standby rescue
- › Netting and bird deterrence
- › Other related specialty services
- › Construction and demolition

**more safety
more productivity**

Rope Access

The BRAND® advantage

BRAND's specialist rope access teams offer a safe, proven, and cost-effective solution for reaching otherwise inaccessible areas, all while minimizing disruption to client projects.

Our team of rope access technicians are fully certified by the Industrial Rope Access Trade Association (IRATA) and undergo rigorous training to ensure top-tier performance. Backed by our longstanding commitment to safety excellence, our rope access teams maintain an outstanding safety record.

Rope access services are available across all the industries we support – either as a standalone access solution, integrated with traditional methods, or as part of a comprehensive multi-service offering.

Benefits of our Rope Access Services

Multi-Disciplined

Our capabilities include inspection, maintenance, repair, installation, and cleaning tasks performed at height or in confined, hard-to-reach areas. We support structural and piping inspections (including NDT), surface preparation and coating, welding, electrical and mechanical work, and more - all executed by multi-disciplined, certified technicians.

Safe

We prioritize safety above all else. Our approach results in fewer at-height exposure hours and contributes to a consistently low Total Recordable Incident Rate (TRIR), ensuring the highest standards of worker protection.

Quick

Rope access significantly reduces setup and dismantle times, helping to minimize downtime and keep projects on schedule. This efficient method ultimately saves both time and costs for our clients.

Effective

Our highly skilled, multi-craft rope access teams are equipped to reach challenging locations with ease. While maximising accessibility and efficiency, our services cause minimal disruption to surrounding operations.

Cost Saving

Rope access is an ideal solution for much more than inspections. Let us show you the potential savings on any craft work at height. Customers report an **average saving of 50%** on projects when using rope access, as compared to traditional access methods.

BRAND is an IRATA approved **RASS** (*Rope Access Safety Supervisor*) **Training Provider**, visit beis.com to find out more.
